

# Research Experience for Undergraduates in Montana

The active research groups of the Montana State University Electrical and Computer Engineering Department will offer 8 – 10 REU positions during summer 2017

**Research:** Most projects in this program involve developing and using optical and acoustic techniques to understand the world around us. A detailed listing of research projects for the summer of 2017 can be found at [ece.montana.edu](http://ece.montana.edu).

**Education:** Each participant will work closely with a faculty mentor and will gain hands experience in active research laboratories. In addition to the hands on research, students will participate in a number of group activities aimed at developing the skills necessary to succeed in research.

**Montana State University, Bozeman:** Montana State University is situated in the spectacular Gallatin Valley surrounded by Absaroka, Gallatin, Hyalite, Tobacco Root, Spanish Peaks, and Bridger Mountain Ranges. The summer months offer outstanding opportunities for outdoor recreation and other activities associated with the university and the vibrant Bozeman community.

**Practical Details:** The summer 2017 program will run from May 30<sup>th</sup> to August 4<sup>th</sup>. Stipends will be \$5,000, travel costs to and from Bozeman will be covered, and university residence hall lodging will be provided.

**Eligibility:** Participants must be full-time undergraduates, typically finishing their sophomore or junior years. Applicants from underrepresented groups are particularly welcome. Participation is limited to US citizens.

**To Apply:** Further information and applications can be found at the Electrical and Computer Engineering Department webpage [ece.montana.edu](http://ece.montana.edu) or email Dr. Kevin Repasky at [repasky@montana.edu](mailto:repasky@montana.edu).
